Address Global Warming with Nature-Based Solutions

The International Ocean Stations

- Energy
- Food
- Water
- Data
- Transport
- Biodiversity
- Peace Promotion

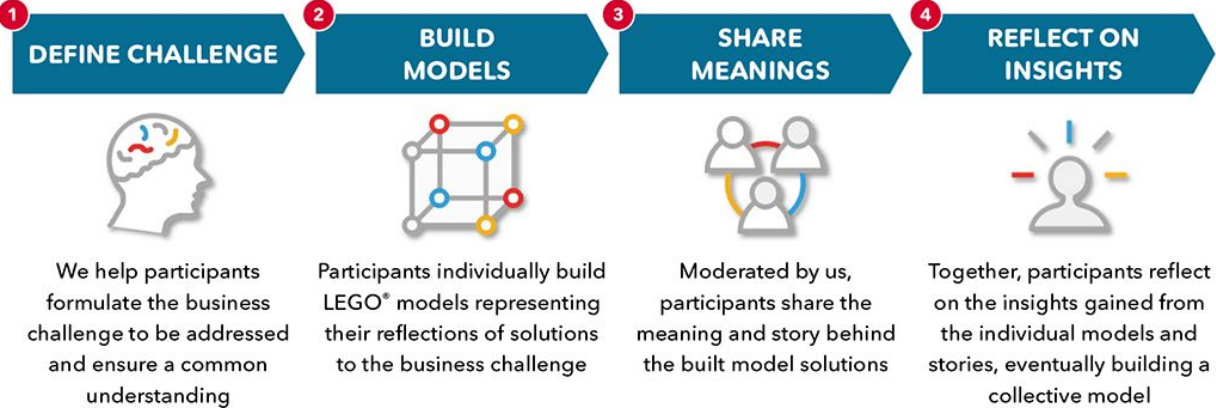

Who can use the International Ocean Station?

- Fisherman
- Elders
- Youths
- Conservationist
- Surfers
- Swimmer
- Seaman
- Navy
- Ocean scientist
- Government Officials
- Hotel owners
- Industriels

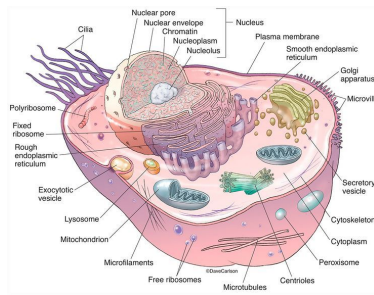

That's why we need a few minutes of your time: to play!

- Time to play!
- Our method is inspired by Lego Serious Play
- The artwork will go to be exhibited at the Mind Museum in Manilla, with your name associated with it!

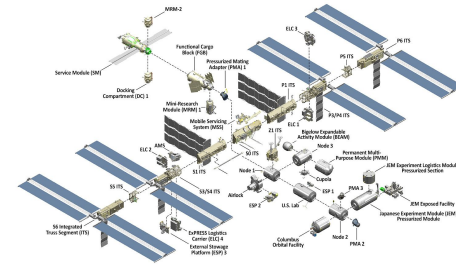

What are we building?

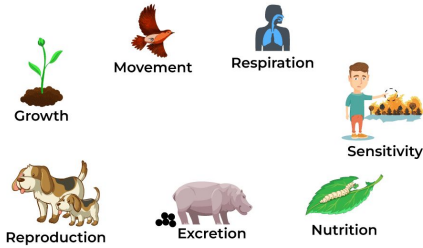

Basic Life

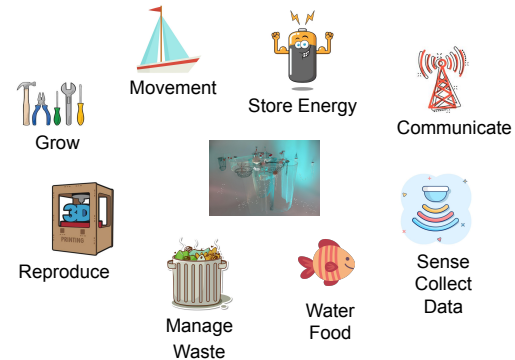

Complex Life Support System

Basic Life Functions

Complex Life Support System Functions

A few Questions

Emotion

How do you feel building and performing the international ocean station model?

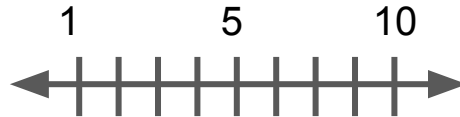

How desirable would it be to have such a floating structure? 1. Not Desirable, 10. Extremely Desirable.

Appropriation

What did you learn, and what what did you create?

How useful would the IOS be to you personally? 1. Not useful. 10. Extremely useful.

Rationalisation

How would you rank the top 5 potential benefits of the IOS?

- Food (fish, mollusk, algae)
- Energy (wind, solar, waves)
- Water (desalination)
- Shelter (floating city)
- Transport
- Science
- Carbon Sequestration, climate tech
- Education
- Art & Performance
- Tourism & Entertainment
- Military

Together, let's build the

International Ocean Station

architectural model
with Cesar Jung-Harada!

Join our afternoon creative sessions and help us imagine a place where people can explore, enjoy, and protect the ocean in a fun and enjoyable way.

Time: Sign up for an afternoon creative session anytime between Oct 24 to 29, from lunch to sunset (11AM to 6PM). Lunch and merienda will be served to registered participants.

Location: SIFCare-CURMA, Subdivision, 374 Saint Jude, San Juan, La Union, Philippines
