That's why we need a few minutes of your time: to play!

- Time to play!
- Our method is inspired by Lego Serious Play
- The artwork will go to be exhibited at the Mind Museum in Manilla, with your name associated with it!

A few Questions

Pre Activity

1. How long have you lived in La Union?
 1. If long: How do you feel it has changed?
 2. If short: What's your impression of La Union?

Post Activity (Build + Performance)

1. # How do you **feel** about what you did here today?
2. If you had more time, what would you **imagine** you would be building?
3. How would you describe your own relationship to the ocean? Can you share with us your own **story** about the ocean, or of your family member/friend?
4. # When you think about the future of your community and the ocean, what do you **fear** the most?
5. Climate change puts coastal communities like ours on the frontline. But we must **realise that we have a lot of power** when it comes to healing our ocean. What do you think we can **do** about these worries and concerns?
6. What aspects of the IOS are the most **valuable** to you and your community?
7. # What would you **dream** your ideal community could be like in 50 years?
8. Your work and voice is going to be featured at the Mind Museum and seen by thousands. What is your **message** to the world about La Union/the Philippines?
